

PROGRAM OVERVIEW

It is widely accepted that Skilled Nursing Facilities (SNF) are leading providers of quality health care in the United States. Given this fact, dynamic and results oriented leaders are essential. Directors of Nursing Services must be knowledgeable and possess the skills needed to motivate and direct staff, make the most of their limited resources and keep abreast of the rapidly changing needs of the profession.

The Director of Nursing Program will provide the opportunity to learn new skills, fine-tune existing knowledge, explore value-based leadership, and operationalize skills and competencies that are needed to be a Director of Nursing Services in today's SNF setting. Experts from academia, the nurse professional association, quality assurance and skilled nursing facilities have served as members of the Leadership Institute advisory committee.

PROGRAM OBJECTIVES

Upon completion of this program, participants will be able to:

- Discuss how leadership and team process affect quality outcomes
- Identify and enhance the competencies needed to be an effective nurse leader
- Articulate the standards of care and practice of licensed nurses in SNFs
- Understand the Federal 2016 Requirements of Participation along with the NYS regulations and how they relate to the survey process
- Identify risk areas and discuss Human Resource Management
- Assist in the financial management of the SNF operation, Medicare and Medicaid
- Facilitate an effective quality assurance and performance improvement process

THIS PROGRAM IS OFFERED AT NO COST!

Thanks to the generous support of the
Iroquois Healthcare Association Workforce
Investment Organization.

**Travel and lodging expenses will be the responsibility of the applicant.*
